The handheld models are so compact that they can fit in the palm of your hand. The desktops are larger and need to be placed on a desk to make operation and handling easier. Though there are different models, most of the models have the same basic operating features. This ensures that your

label creation is done with ease. The size of battery and the amount of batteries you must use will vary by the model of P Touch you are using. You will see the battery compartment on the bottom of the label maker. If you have an AC Adapter for your label maker, you can also opt to plug in the AC Adapter to use electricity instead of battery power. Pull down the lever to secure the tape cassette in place. Close the tape cassette compartment. Keep pressing the style and size buttons until you see the style and size for the font you wish to use. Your label maker display window will only display six characters at a time. However, by pressing the arrow keys you can scroll your message to the right or left to read the entire message. The label will automatically begin printing.
